

ETTER

ValveWorx Valve Trains

ValveWorx EVWB

ValveWorx EVWR

ValveWorx EVWX

ETTER Engineering's ValveWorx line of standardized Valve Trains were created to bring any piece of equipment up to the standards of NFPA-86. They come in a variety of sizes to ensure compatibility with the majority of Industrial equipment in use today. Designed for retrofit applications, ETTER's ValveWorx Valve Trains provide for safe, efficient operation at a variety of price points.

Highlights Include:

- Sizes available from 3/8" NPT to 6" Flanged (may be limited to 3" for standard products)
- Ventless systems using FM Approved components
- All components are UL-Approved
- Regulated and non-regulated trains available
- Leak Tested and Operationally checked
- Fast lead times on standard offerings

ValveWorx Packages:

ValveWorx Basic (EVWB): Includes two manual shutoff valves, two SIEMENS Safety Shut Off Valves, and an Inlet Pressure Gauge.

ValveWorx Regulated (EVWR): Adds an Outlet Gauge and Regulator with sensing line to the Basic package.

ValveWorx Extra (EVWX): Builds on the EVWR package by adding a WYE Strainer to the EVWR package.

The ETTER Advantage:

ETTER Engineering has been building Industrial Valve Trains since 1940! During that time, we have seen many changes come about, and have always kept up to date with the latest iterations of the NFPA-86 code.

Our Valve Trains arrive pre-piped and wired, requiring minimal installation time and effort. We are known throughout the Process Heating and Combustion industries as a recognized expert, and provide unparalleled support. Our Service Department is always available to assist in installation of maintenance of any ETTER ValveWorx product.
